About Us

- In 2009, Yashwantrao Chavan Institute of Polytechnic was established at Beed.
- Since its inception till date, the institute has been continuously providing quality technical education services in Beed. Along with book education, demonstrations are conducted with the best laboratories, labs, modern technical equipment etc. to develop skills. Industrial visits are organized from time to time for the students to experience the industrial world. Project based education, value based education method is used for the purpose of education through new means.

Vision of Institute

To develop a student through quality education to deals with social and Industrial challenges, for the sustainable development of the society.

Missionof Institute

- To provide and maintain the discipline environment for the quality education through curricular and Co-curricular activities.
- To develop socially responsible human values through extracurricular activities.
- To create awareness about entrepreneurship and employable skills

Management Desk
M.S.P. Mandal, Chh. Sambhajinagar

Hon. Shri. Prakash S. Solanke
President

Hon. Shri. Amarsinha S. Pandit
Vice-President

Hon.Shri. Satish B. Chavan
Secretary

Dear readers, it gives me immense pleasure to present first issue of new letter "Smart YCIP", I congratulate to Director, Principal, and Teaching& Non-Teaching Staff of YCIP's taking efforts to fulfil dreams of students. Let us think of Education of means of developing our greatest abilities. Because in each of us, there is hope & dream which is yet to be fulfilled. That can be translated in to benefit for everyone in the civilized society & greater strength of our "NATION" & it take someone special to be an educator; A person who care for other, & aim to help student to fulfil their inherent potentials. The best teacher is capable,

dedicated & hardworking, along with interest in making a substantial difference in the future of student community & making the globally recognized., YCIP has lively an encouraging academic environment in which faculties & student interact to the fullest. All of us are connected by an interest in field of Polytechnic striving hard to serve the society by educating & implementing research to prevent & treat disease. The new facility is well on the way of helping future Engineer.

I once again welcome & congratulate all team of YCIP & appeal all your reader to grab opportunity to nurture & shape career in the evergreen, noble profession of polytechnic at YCIP Beed.

M.S.P. Mandal's Executive Council

Principal Desk

Dr. Bapurao G. Marlapalle
Principal

My Dear Students,

   If you do not take education, do not absorb knowledge, then life becomes useless. And the society in which most people are ignorant, the whole society remains neglected.

In 1959, Shri Vinayakrao Patil and Shri Dadasaheb Sawant established the Marathwada shikshanprasark mandal in Marathwada with the aim of providing education to the rural studentsof rural areas in Marathwada. Going forward, he also started technical education to provide skill-based education to the students of Marathwada. Yashwantrao Chavan Institute of Polytechnic was established in Beed in 2009 as part of this.

From its inception till today, the organization has been providing continuous technical education services in Beed. Along with book education, demonstrations are taken with excellent laboratories, labs, modern technical equipment, etc. to develop skills. Industrial visits are organized from time to time so that students get experience of the industrial world.Project based education;value-based education method is used to make education through new medium.

Department of Computer Technology

About Computer Technology Department

- ❖ The department of Computer Technology was stared in the academic year 2009-2010 with aim of promoting high quality education, the department currently offer diploma engineering program in Computer Technology following the MSBTE Mumbai. The Computer Department of our Polytechnic College is dedicated to nurturing young minds with the knowledge and skills required in today's digital era. Established with a vision to impart quality technical education, the department offers a well-structured curriculum designed to meet industry standards and future technological trends.

Vision of Computer Technology Department

To provide excellent education in computer technology also creates awareness for Social, Ethical, and Human values.

Mission of Computer Technology Department

1. To provide latest technology in the area of computer science.
2. To provide an industry institute interaction for student training.
3. To develop the entrepreneurship skill for student.
4. To provide high quality education to achieve the need of society.

Department Faculties

Activities

❖ Parents Meeting

Institute has arranged parent meet, we have better communication between institute & parent in concern with progress of student, all parents where inform by letter & phone call to present for meet. All most all parents were present for meet. It was with objective to inform the parent about the progress of their ward & trying to settle their grievances & to provide information of all activities that institute is running for the academic progress of students.The inaugural function started at 11:00 am with lightening of lamp & Saraswati Pujan Principal sir was the president of program all teaching & non-teaching staff of institute was present.

The inaugural speech was delivered by principal Dr. Marlapalle B.G in speech he introduces of institute & gave information about the different program that were conducted to improve performance of student, he said the majority of students are belong to rural area of Beed district & surroundings, these students are feared of English & could not able write & speak English properly, it is our aim to improve English of all students so they can write & speak well. For that every month YCIP conduct guest lectures for English Speaking & Personality Development Course. It course came of with great outcome. He continues to upgrade industrial knowledge of student institute arrange guest lecture of eminent weakness. This gave them opportunity to work on their weakness & strengthen their strength. Student learn how to improve concentration, how to make study interesting, how to develop self-interest etc.

❖ Mentor-Mentee Scheme

The institute has implemented a Mentor–Mentee Scheme to provide academic guidance and personal support to students. Under this scheme, each faculty member acts as a mentor for a group of students, known as mentees, to monitor their academic progress and overall development.

The mentors encouraged students to participate in various self-learning activities to improve their skills and knowledge. Students were guided to use platforms such as Duolingo for improving English communication skills, Typing Club for enhancing typing speed and accuracy, regular book reading to develop knowledge and reading habits & Aptitude for improve logical thinking, problem solving skill.

Through regular interactions and meetings, mentors guide students regarding academic performance, career planning, personal challenges, and skill development. The scheme helps in identifying students' strengths and difficulties, allowing mentors to provide appropriate support and counselling.

The Mentor–Mentee Scheme also encourages better communication between students and faculty members, creating a supportive learning environment within the institute.

This initiative plays an important role in enhancing student confidence, motivation, and overall personality development, ensuring their academic success and well-being

❖ Poster Presentation

A Poster Presentation competition was organized on 02/03/2026 for students to encourage creativity, research, and effective communication of technical ideas. The event provided a platform for students to present their knowledge on various engineering and technology-related themes.

Students prepared informative and innovative posters highlighting latest technologies, engineering concepts, and practical applications. During the presentation, participants explained their ideas and concepts to the judges and audience, demonstrating their understanding, creativity, and presentation skills.

The competition helped students improve their research abilities, confidence, and communication skills. Faculty members evaluated the posters based on content, creativity, clarity, and presentation. The event was highly engaging and provided students with an opportunity to showcase their technical knowledge and innovative thinking

❖ Quiz Competition

The Quiz Competition was organized on 02/03/2026 for students to enhance their knowledge, awareness, and quick-thinking abilities. The competition aimed to encourage students to stay updated with technical knowledge, current affairs, and general awareness.

The competition included questions from engineering concepts, science, technology, and general knowledge. The quiz was conducted in multiple rounds, making the event interactive, exciting, and competitive. Participants demonstrated their analytical skills, teamwork, and presence of mind while answering the questions.

The Quiz Competition proved to be an engaging learning activity that motivated students to expand their knowledge and develop confidence in academic and technical fields.

❖ Personality Development Self Awareness

Personality development is the ongoing process of enhancing and shaping one's personality traits, behaviours, attitudes, and qualities, ultimately contributing to an individual's overall persona and self-awareness. we are then empowered to make changes & to build on our areas of strength as well as identify areas where we would like to make improvements. Mr. Chetan Sagar & Dr. Sachin Agarwal programme conducted on personality development &self-awareness. In this student had undergone a self-awareness test, in which they came to know about their strength &experience the depends their appreciation of a lifelong connection with YCIP. Leadership development opportunity, networking opportunity professional development skill building opportunity interaction with a firm & energizing group of students & staff.

❖ Expert Lecture
Expert Lecture on JAVA By "Mr. Tejas Kamble - Anshika Info Tech

The Department organized an Expert Lecture on Java Programming for second-year students to enhance their understanding of advanced programming concepts and industry practices. The session aimed to strengthen students' knowledge of object-oriented programming and practical application development using Java Programming Language.

The expert speaker explained important topics such as object-oriented concepts, classes and objects, exception handling, and database connectivity in Java. Students were also introduced to real-world applications of Java in software development, web applications, and enterprise systems. The session included demonstrations and examples that helped students understand how Java programs are designed and executed.

During the lecture, the expert also discussed career opportunities in software development and the importance of strong programming skills in the IT industry. Students actively participated by asking questions and interacting with the expert, which made the session informative and engaging.

Overall, the lecture was very beneficial for the students as it improved their conceptual understanding and motivated them to develop their programming skills further. The department expressed gratitude to the expert for sharing valuable knowledge and guiding students toward industry-oriented learning.

Craft from Waste

The college organized a "Craft from Waste" activity to encourage students to develop creativity while promoting the concept of reuse and recycling. The objective of this activity was to inspire students to convert waste materials such as paper, plastic bottles, cardboard, and other discarded items into useful and decorative products.

Students actively participated in the activity and created innovative items including pen stands, decorative models, wall hangings, and eco-friendly craft materials using waste resources. The activity helped students understand the importance of waste management, environmental protection, and sustainable practices.

Through this initiative, students learned how simple waste materials can be transformed into valuable products with creativity and imagination. The event also promoted teamwork, innovation, and awareness about reducing environmental pollution.

The Craft from Waste activity was highly engaging and encouraged students to adopt eco-friendly habits in their daily lives while showcasing their artistic talents.

Expert Lecture on "Web Page Design" By Alumina Student Dhiraj Nehrkar

The Department organized an Expert Lecture on Web Page Design for first-year students with the objective of introducing them to the fundamentals of web development and modern website design practices. The lecture focused on building a strong foundation in designing attractive and user-friendly web pages.

During the session, the expert explained the basic concepts of web page creation using HTML, CSS, and the role of JavaScript in making websites interactive and dynamic. Students learned about webpage structure, formatting text, inserting images, creating hyperlinks, and designing layouts. The speaker also highlighted the importance of responsive design and usability in modern websites.

The expert demonstrated simple examples of webpage development, which helped students understand how a webpage is designed and displayed in a web browser. Practical tips were given on how to create visually appealing and well-structured websites.

Students actively participated in the session and interacted with the expert by asking questions about web development tools, career opportunities, and current trends in website design. The lecture helped students gain valuable insights into the field of web technologies. Overall, the session was highly informative and beneficial for first-year students. It motivated them to develop their creativity and technical skills in the area of web page design and encouraged them to explore further learning in web development.

Financial Education Session by Mr. Ganesh Choudhari (SEBI)

A special session on Financial Education was organized to promote financial literacy among students. The session was delivered by Mr. Ganesh Choudhari, a resource person associated with the Securities and Exchange Board of India (SEBI).

During the session, Mr. Choudhari highlighted the importance of financial planning, saving habits, and responsible investment practices. He explained the role of SEBI in regulating the securities market and ensuring transparency and protection for investors.

Students were introduced to various investment options such as mutual funds, shares, bonds, and systematic investment plans (SIP). The speaker also guided students on how to avoid financial frauds and make informed financial decisions.

❖ Industrial Visit

Industrial Visit to Sumago Infotech, Pune

The Department organized an Industrial Visit to Sumago Infotech, Pune for second-year and third-year students with the objective of providing practical exposure to the working environment of the IT industry. The visit aimed to bridge the gap between theoretical knowledge and real-world industrial practices.

During the visit, students were introduced to various activities carried out in the company such as software development, web application development, and IT services. Industry experts explained the software development process, project management techniques, and the technologies used in developing modern applications. The students also learned about different stages involved in the development of IT projects, including requirement analysis, design, coding, testing, and deployment. The experts shared valuable insights about current industry trends, career opportunities in the IT sector, and the skills required to become successful software professionals.

The interactive session allowed students to ask questions and gain a better understanding of how IT companies operate. The visit helped students observe the professional work culture, teamwork, and technical practices followed in the industry. Overall, the industrial visit was highly informative and beneficial for the students. It enhanced their practical knowledge and motivated them to prepare themselves for future careers in the IT industry. The department expressed sincere gratitude to Sumago Infotech for providing this valuable learning opportunity.

Industrial Visit to Industrial Visit Owntap Software Solution Beed

The Department organized an Industrial Visit to OWNTAP Solution, Beed for first-year students with the objective of providing them with an introduction to the working environment of the IT industry. The visit aimed to give students practical exposure and help them understand how technology is used in real-world organizations. During the visit, industry experts from the company explained the basic concepts of software development, website development, and IT services. The students were introduced to the process of developing software applications and websites, starting from planning and design to coding and implementation.

The experts also discussed the importance of programming languages, teamwork, and continuous learning in the field of information technology. They shared information about current trends in the IT industry and guided students on how they can prepare themselves for future careers in software and web development. Students actively participated in the interactive session by asking questions and learning about the tools and technologies used in the company. The visit helped them understand how classroom learning is connected to practical industrial applications.

Overall, the industrial visit was very informative and inspiring for the first-year students. It motivated them to develop their technical knowledge and skills and encouraged them to explore more opportunities in the field of information technology. The department expressed sincere gratitude to OWNTAP Solution for providing valuable guidance and support during the visit.

Industrial Visit to Comtranse Technology kolhapur.

The Department organized an Industrial Visit to Comtranse Technology, Kolhapur for second-year and third-year students to provide them with practical exposure to the working environment of the IT industry. The objective of the visit was to help students understand how theoretical concepts learned in classrooms are applied in real industrial settings. During the visit, the company experts explained various activities carried out in the organization such as software development, web development, and IT solutions. Students were introduced to the different stages of the software development life cycle, including requirement analysis, system design, coding, testing, and deployment.

The experts also discussed modern technologies used in the IT industry and highlighted the importance of programming skills, teamwork, and problem-solving abilities for building a successful career in the software field. Students were given the opportunity to interact with the professionals and ask questions related to industry practices and career opportunities.

The visit helped students understand the real-time working environment, project management processes, and the role of different teams involved in developing IT solutions. Overall, the industrial visit was highly informative and beneficial for the students. It enhanced their practical knowledge and motivated them to develop the technical and professional skills required for the IT industry. The department expressed

sincere gratitude to Comtranse Technology for providing valuable guidance and support to the students during the visit.

❖ Social Activity by NSS

On the occasion of the birth anniversary of Late Yashwantrao Chavan, the NSS unit of the institute organized a Blood Donation Camp as a part of its social service activities. The program aimed to honor the legacy of the great leader by promoting the values of service, humanity, and social responsibility.

The camp was organized in collaboration with a recognized blood bank and medical team, who carried out proper health check-ups and safe blood collection procedures. A large number of students, faculty members, and NSS volunteers enthusiastically participated in the camp and donated blood.

The activity successfully reflected the spirit of social commitment and community service, paying a meaningful tribute to Late Yashwantrao Chavan on his birth anniversary.

❖ <u>Cleanliness Campaign</u>

The NSS unit of the institute organized a Cleanliness Campaign to promote awareness about hygiene, environmental protection, and the importance of maintaining clean surroundings. The activity was conducted as part of the NSS initiative to encourage students to participate in community service and social responsibility.

During the campaign, NSS volunteers and students actively participated in cleaning the campus and nearby areas, collecting waste materials and spreading awareness about proper waste disposal. The volunteers also motivated people to maintain cleanliness and adopt healthy habits for a better environment.

The campaign highlighted the importance of the "Swachh Bharat" mission and encouraged students to contribute towards building a clean and healthy society.

The activity successfully created awareness among students and the community about the importance of cleanliness, environmental protection, and social responsibility

❖ Social Life Skill Activity: Visit to Slum Area

As a part of Social Life Skill development, the NSS unit organized a visit to a nearby slum area to create social awareness and encourage students to understand the living conditions of underprivileged communities. The objective of this activity was to develop a sense of social responsibility, empathy, and community service among students.

During the visit, NSS volunteers interacted with local residents and children, spreading awareness about cleanliness, hygiene, health, and the importance of education. Students also motivated children to attend school regularly and maintain good personal hygiene.

The activity helped students understand the challenges faced by economically weaker sections of society and inspired them to contribute positively towards social development.

❖ Tree Plantation

The institute organized a Tree Plantation Activity to promote environmental awareness and encourage students to contribute to a greener and healthier environment. The activity aimed to highlight the importance of planting trees for ecological balance, pollution control, and sustainable development.

During the program, students, faculty members, and NSS volunteers actively participated in planting various saplings within the campus and nearby areas. Participants were also guided about the importance of protecting plants and maintaining greenery for a better environment.

The activity helped create awareness about environmental conservation and the role of trees in maintaining ecological balance. It also encouraged students to take responsibility for protecting nature and promoting
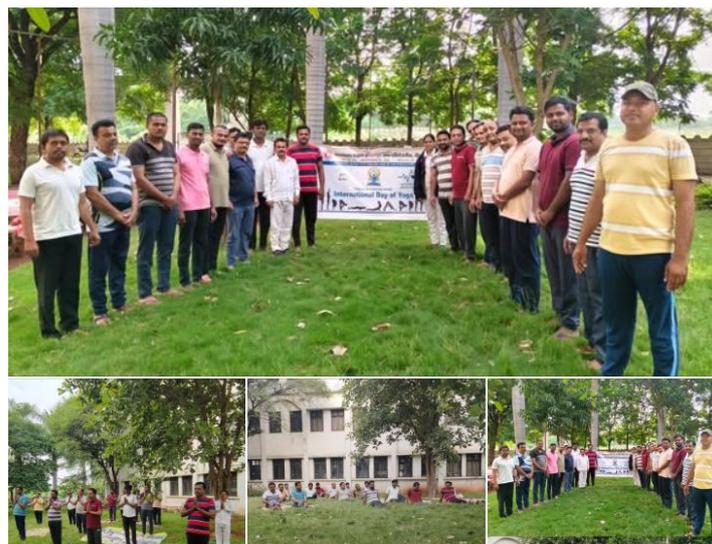

sustainable practices.The Tree Plantation program was a meaningful initiative that inspired students to work towards building a clean, green, and healthy environment.

❖ International Yoga Day Celebration

The institute celebrated International Yoga Day with great enthusiasm to promote the importance of yoga and a healthy lifestyle among students and staff. The program aimed to create awareness about the benefits of practicing yoga for physical fitness, mental peace, and overall well-being.

During the event, students and faculty members actively participated in a yoga session, where they performed various yoga asanas, pranayama, and meditation techniques under the guidance of a trained instructor. The instructor explained the importance of regular yoga practice for maintaining good health, concentration, and stress management.

The celebration encouraged participants to adopt yoga as a part of their daily routine for a healthy body and mind. The program successfully spread awareness about the significance of yoga in maintaining a balanced and disciplined life.The program successfully conducted successfully under guidance of institute yoga teacher Mrs. Shep M.S.

❖ Birth and Death Anniversaries of Great Leader

The institute observes the birth and death anniversaries of great national leaders and social reformers to honor their contributions to society and the nation. These occasions provide an opportunity for students and staff to remember the values, vision, and achievements of these inspiring personalities.

On such occasions, various activities such as tribute programs, speeches, lectures, and awareness sessions are organized. Students and faculty members gather to pay respect and reflect on the ideals of these great leaders.

These programs help students understand the importance of patriotism, social responsibility, leadership, and ethical values in their personal and professional lives.

Celebrating the birth and death anniversaries of great personalities inspires students to follow their principles and contribute positively to society and nation-building

❖ Institute Committees

Anti-Ragging

To maintain a safe, disciplined, and student-friendly environment, the institute has established Institutional Committees for Discipline Maintenance and Anti-Ragging. These committees play a vital role in ensuring that students follow the code of conduct and maintain mutual respect within the campus.

The Discipline Committee monitors student behavior and encourages adherence to institutional rules and regulations. It works to maintain order and promote a positive academic atmosphere in the institute.

The Anti-Ragging Committee is formed in accordance with government and regulatory guidelines to strictly prevent any form of ragging on campus. The committee creates awareness among students about the harmful effects of ragging and ensures that the campus remains safe and welcoming for all students.Regular

meetings, awareness programs, and monitoring activities are conducted to uphold discipline and promote a culture of respect, responsibility, and harmony among students

The institute has constituted a Vishakha Committee in accordance with the guidelines of the Supreme Court of India to ensure a safe and respectful environment for all students and staff members. The committee works to prevent and address issues related to sexual harassment at the workplace and within the campus.

The Vishakha Committee is responsible for creating awareness about gender equality, respect, and appropriate behavior among students and employees. It also provides a platform where individuals can report grievances related to harassment or misconduct in a confidential and supportive manner.

Through awareness programs, counselling sessions, and regular monitoring, the committee promotes a culture of dignity, safety, and mutual respect within the institute. The presence of the Vishakha Committee helps ensure that the campus remains a secure and inclusive place for everyone

Women's Grievance Cell

The institute has established a Women's Grievance Cell to ensure a safe, respectful, and supportive environment for female students and staff members. The main objective of the cell is to address and resolve grievances related to the safety, security, and well-being of women on campus.

The Women's Grievance Cell provides a platform where female students and employees can freely express their concerns and seek guidance or support. The committee works to handle complaints with confidentiality, fairness, and sensitivity.

The cell also organizes awareness programs, counseling sessions, and discussions on women's rights, safety, and empowerment. Through these activities, the institute promotes gender equality, dignity, and a healthy academic environment for all.

The Women's Grievance Cell plays an important role in maintaining a safe, inclusive, and respectful atmosphere within the institute.The recent meeting held on 01/03/2026.

Internal Complaint Committee (ICC)

The institute has established an Internal Complaint Committee (ICC) to ensure a safe, respectful, and harassment-free environment for all students and staff members. The committee is formed in accordance with the guidelines for the prevention of sexual harassment at the workplace and educational institutions.

The primary objective of the Internal Complaint Committee is to receive, address, and resolve complaints related to harassment or misconduct in a fair and confidential manner. The committee ensures that all complaints are handled with sensitivity, impartiality, and strict confidentiality.

Outward No. / MSPM / YCIP/ 2024-25/ 410   Date: 07 / 12 /2024

INTERNAL COMPLAINT COMMITTEE

Ref. No.:- As Per norms in Appendix -6 of AICTE –Hand –Book -2020-21

With reference to above, Internal Complaint Committee is formed to resolve all matters related to Gender Sensitization, Prevention and prohibition of sexual harassment of women Employees and Students.

As per Act of Prevention and prohibition Sexual Harassment of women employees and student Act. 2013.

Internal Quality Assurance Cell (IQAC)

The Internal Quality Assurance Cell (IQAC) of the institute plays an important role in maintaining and enhancing the quality of education, teaching–learning processes, and institutional development. The cell works towards continuous improvement in academic and administrative performance.The main objective of IQAC is to develop and implement quality benchmarks for academic activities, promote innovative teaching methods, and encourage research and skill development among students and faculty.

SC/ST Committee

The institute has constituted an SC/ST Committee to safeguard the rights and interests of students belonging to Scheduled Castes (SC) and Scheduled Tribes (ST). The committee ensures that these students receive equal opportunities and support in academic and campus activities.

The main objective of the committee is to address the grievances of SC/ST students, prevent any form of discrimination, and promote an inclusive and respectful environment within the institute.

The committee also creates awareness about government policies, scholarships, and welfare schemes available for SC/ST students. It encourages students to actively participate in academic, cultural, and extracurricular activities.

EDP Cell Advisory Committee

The institute has established an Entrepreneurship Development Program (EDP) Cell Advisory Committee to promote entrepreneurial skills and innovation among students. The committee guides and supports activities that encourage students to develop an entrepreneurial mindset and explore opportunities for self-employment.

The EDP Cell organizes workshops, seminars, training programs, and expert lectures to provide students with knowledge about business planning, startup development, and entrepreneurship opportunities. The advisory committee also provides guidance for project development, idea generation, and industry interaction, helping students understand the practical aspects of starting and managing a business. Through these initiatives, the EDP Cell Advisory Committee motivates students to become job creators rather than job seekers, contributing to economic and technological development.

Incubation Centre Advisory Committee

The institute has established an Incubation Centre Advisory Committee to promote innovation, creativity, and entrepreneurship among students. The committee provides guidance and support to students who have innovative ideas and wish to develop them into practical projects or startup ventures.

The Incubation Centre offers a platform where students can develop new technologies, improve product ideas, and receive mentorship from faculty members and industry experts. The advisory committee helps in planning incubation activities, providing technical guidance, and encouraging research and development.

Various workshops, training programs, and mentoring sessions are organized to help students understand the process of innovation, product development, and startup management.

Through these initiatives, the Incubation Centre Advisory Committee encourages students to think creatively and transform innovative ideas into practical solutions for real-world problems.

❖ Sports

Sports Event

The institute organized a sports event for students to encourage physical fitness, teamwork, and sportsmanship. The event aimed to promote a healthy lifestyle and provide students with an opportunity to showcase their sporting talents.

Various indoor and outdoor sports competitions such as cricket, volleyball, badminton, kabaddi, and athletics were conducted during the event. Students from different departments actively participated with great enthusiasm and competitive spirit.

❖ IEDSSA2025-26

Achievement in Athletics – 400 Meter Running

In the athletics competition currently being held at Chhatrapati Sambhajinagar, Mr. Yash Masal, a second-year student from the Mechanical Engineering department, secured First Place in the 400-meter running event.

His outstanding performance and determination have brought great pride to the institute. This achievement reflects his hard work, dedication, and strong sporting spirit.The institute congratulates Mr. Yash Masal for this remarkable accomplishment and also appreciates the efforts and support of the Y.C.I.P. team.

Achievement in IEDSSA G1 Zone Badminton Competition

In the IEDSSA G1 Zone Sports Competition, the Badminton team of our institute achieved remarkable success by securing the Second Prize. The team of Computer Department consisted of Miss. Sanika Patil, Miss. Pallavi Khopade, Miss. Sakshi Sanap, Miss. Sakshi Aghav, Miss. Diya Pandhare Their excellent teamwork, dedication, and sporting spirit helped them achieve this proud accomplishment in the badminton event. The institute congratulates all the students, their coordinator, the entire team, and the Y.C.I.P. team for their efforts and outstanding performance. The institute wishes them continued success in future sports competitions

Achievement in Athletics – 200 Meter Running

In the athletics competition currently being held at Chhatrapati Sambhajinagar, Mr. Vishal Shirsat, a first-year student from the Electrical Engineering department, secured First Place in the 200-meter running event. His excellent performance and determination brought pride to the institute. The achievement reflects the student's dedication, hard work, and sporting spirit.
The institute congratulates Mr. Vishal Shirsat on this remarkable accomplishment and also appreciates the efforts of the Y.C.I.P. team for their support and encouragement.

❖ Facilities

<u>Spacious Campus</u>   <u>Smart Classroom</u>

<u>Hostel</u>   <u>Workshop</u>

❖ Campus Placements

      1500+ students from the YCIP have been selected an enrolled in the various companieslike John Deer, JCB, NRB Bearing, Varroc, Dhoot Transmission, TATA Motors, Bajaj Auto,etc. through the process of campus interview. The selection criteria for the same were: written test, technical knowledge, medical checkup, and interview.In this academic year 2025-26 Total 51 Students of Institute Selected in John Deere. Students of Yashwantrao Chavan Polytechnic, Beed have once again achieved a remarkable milestone. A total of 51 students from the institute have been selected for the position of Trainee Engineer in the renowned international company John Deere, Pune, with an annual package of ₹3.20 lakh.

Among the selected students, 23 are from the Mechanical Engineering department and 28 are from the Electrical Engineering department. The selection was conducted through a campus placement drive organized at the institute, where students successfully cleared the written test, technical interview, and HR interview.

The students demonstrated excellent technical knowledge, practical skills, and communication abilities, which helped them secure positions in the prestigious company.

Congratulating the students on their success, Principal Dr. Bapurao Gahininathrao Marlapalle stated that the institute's quality technical education, industry-oriented training, and regular industrial visits play an important role in preparing students for opportunities at the international level. He further added that selection in a reputed company like John Deere is a matter of great pride for the institution.

This achievement will provide students with exposure to advanced technologies, global work culture, and excellent career opportunities in the engineering sector.

❖ Student Opinion:

Pawar Satyajit (CM6K)

Apart from regular academics, the institute provides different opportunities for students to learn and grow, especially through guest lectures. I really like activities such as industrial visits, hospital visits, guest lectures, and Entrepreneurship Development Programs. These activities help us gain practical knowledge and play an important role in building our careers. The institute also organizes various career guidance programs at the school level, which motivate and guide students for their future.

Our institute is fortunate to have dedicated teachers, devoted students, and very supportive staff. Teachers give special attention to our studies and provide all the necessary study materials and guidance for our academic development. Through this newsletter, I would like to specially congratulate the students who have been placed in various companies. I wish them the very best of luck for their bright future. Finally, I would like to express my sincere thanks to our Principal Sir and all the teaching staff for giving us this golden opportunity to learn, grow, and achieve our goals.

❖ Faculty Opinion:

Mr. Swami G.D

CM Dept. (Lecturer)

The Computer Department in YCIP provides quality technical education to students and prepares them for the rapidly growing IT industry. Computer engineers design, develop and maintain software systems, computer networks, and modern digital technologies that are used in almost every field today. By studying computer engineering, students can look forward to excellent career opportunities and a dynamic work environment.

Students in the computer department learn programming languages, software development, database management, networking, web technologies and emerging technologies like artificial intelligence and data science. These skills help them develop software applications, manage information systems, design secure networks and contribute to technological innovations in industries such as IT, healthcare, finance, education and manufacturing. From this newsletter, I would like to specially congratulate all the students who have been placed in various companies. I wish them the very best of luck for their bright future and professional growth. Our teachers always give special attention to students' academic development and provide all the necessary study materials and guidance for their success. I am thankful to the Principal Sir and all the teaching staff for giving us this golden opportunity to learn and grow.
